Helpful terms to know when choosing a plan.

**Coinsurance**
Your share of the costs of a covered health care service, calculated as a percent.

**Copayment or Copay**
A fixed amount of money you’ll pay for a covered doctor visit.

**Covered Services**
The portion of a medical expense that the plan has agreed to pay for or reimburse. They include:
- Doctor’s office visits
- Emergency services
- Hospital care
- Lab services
- Pregnancy care services
- Outpatient care services
- Wellness services

**Deductible**
The amount you’ll need to pay before your plan will start to pay for covered services.

**Network**
A group of health care providers and facilities that have a contract with UnitedHealthcare. Using the network may help lower your costs because these providers and facilities have agreed to provide services at a discount. If you use out-of-network providers, your costs may be higher.

**Out-of-pocket Limit**
The most you could pay during a coverage period (usually one year) for your share of the costs of covered services. After you meet this limit, the plan will usually pay 100 percent of the allowed amount. The out-of-pocket limit includes all of your network payments.

**Preventive Care**
Routine health care, including screenings, checkups and patient counseling to prevent or discover illness, disease or other health problems.

UnitedHealthcare
Preventive Plan

Get a simpler plan that covers the basics.

Save money by staying in our network.
A network is a group of health care providers and facilities that have a contract with UnitedHealthcare. You can receive preventive care services from anyone in our network. If you don’t use the network for health care services, you’ll have to pay all expenses.

There’s no need to select a primary care physician (PCP) or get referrals to see a specialist.
Consider choosing a PCP. Your PCP can be your partner in managing your care. They can help you avoid duplicating tests and services and connect you to a specialist.

Coverage for preventive care.

Services that are covered:
• One physical checkup every year.
• One OB/GYN checkup every year (Pap smear).
• One screening test for breast cancer every year (mammogram).
• Birth control pills or other forms of birth control.
• Shots for measles or other childhood diseases (immunizations, as well as flu shots).
• One colonoscopy every five years.
• Tobacco cessation program and associated medications.
UnitedHealthcare covers these services for you, your spouse and/or your children if you buy the plan for them, too.

Services that are not covered:
This plan doesn’t cover hospital care or non-preventive physician services. In addition, costs for other services, such as X-rays, blood tests, emergency department visits or any other services to treat medical conditions, are not covered. If you have or expect to have significant health care expenses, you may want to consider enrolling in a more comprehensive health care plan.

The network can help lower your costs.
You must see a doctor in the UnitedHealthcare Options PPO network; services received outside of the network are not covered.
We have:
• 884,689 physicians and health care professionals.*
• 5,634 hospitals.*
*As of 3/31/17.
